

Problem Statement:

Python program to remove punctuations from given string

```
punctuation="~!@#$%^&*()_-[]:;'.?'" data-bbox="144 173 468 192"/>
```

```
str=input("enter a string:")" data-bbox="144 210 369 228"/>
```

```
no_punct=""" data-bbox="144 246 258 265"/>
```

```
for char in str:" data-bbox="144 282 268 299"/>
```

```
    if char not in punctuation:" data-bbox="204 317 424 337"/>
```

```
        no_punct=no_punct+char" data-bbox="264 355 483 374"/>
```

```
print(no_punct)" data-bbox="144 392 281 410"/>
```

OUTPUT:

```
enter a string:This is @%^my page" data-bbox="144 500 438 519"/>
```

```
This is my page" data-bbox="144 524 282 544"/>
```
