**Problem Statement:**

Python program to read a number n and compute n+nn+nnn

```python
n=int(input("Enter a number n:"))

temp=str(n)

t1=temp+temp

t2=temp+temp+temp

comp=n+int(t1)+int(t2)

print("The value is:",comp)
```

**Output:**

Enter a number n: 5

The value is:615
