Problem Statement:

Python program cloning or copying a list using slicing technique.

```
def Cloning(lil):
        li_copy=lil[:]
        return li_copy
lil=[4,8,2,10,15,18]
li2=Cloning(lil)
print("Original List:",lil)
print("After Cloning:",li2)
```

OUTPUT:

Original List: [4,8,2,10,15,18]

After Cloning:[4,8,2,10,15,18]
